

Designed for a wide range of dent pulling and body straightening applications, the GYSPOT EXPERT 200 is a high-performance machine capable of delivering up to 5,100 amps of power. The welding current and weld time can be adjusted independently for more precise control, minimizing impact on galvanized coatings and especially thin sheet metal.

### EQUIPMENT DESIGNED FOR PROFESSIONALS THAT REQUIRE COMPLETE CONTROL OF THEIR DENT PULLING PROCESS.

Designed to operate on a 200–240V power supply with a 30A slow-blow fuse, the GYSPOT is built for reliable performance in professional body shop environments.

EXPERT 200 can be used in two different modes:

- ✓ A **MANUAL mode**, where the operative can independently set the welding current and welding time to fit the requirements of a particular job/material thickness.
- ✓ A **SYNERGIC mode** :- The machine will use the GYS Expert Engineers recommended settings. Simply select the tool to be used and the power is automatically set. Simply select the tool used and the power required for the thickness of the sheet.

For extra control, two welding operations are available:

- ✓ **automatic** operation: the Arc begins when the tool is in contact with the metal sheet.
- ✓ **manual** operation: the Arc begins when the tool is in contact with the metal sheet and the trigger is pressed.

### A COMPLETE, VERSATILE MACHINE

The EXPERT is designed to carry out multiple body shop tasks. The operative has the choice of 7 dedicated programs:

- 1 • Dent pulling operations
- 2 • Welding of wavy wire or pulling rings
- 3 • Removal of dents using copper stars
- 4 • Carbon electrodes for sheets shrinking
- 5 • Welding of keys for lateral rods
- 6 • welding of rings for earth fixing
- 7 • welding of studs to fix earth and connection cables to vehicles

### SUPPLIED WITH ALL STANDARD ACCESSORIES REQUIRED TO OPERATE

1 GUN WITH TRIGGER  
ref. 057524 - 78.7" - Ø 70 mm²

1 SPOTTER BOX PRO  
ref. 050075

Cable length:  
ground: 78.7"  
power supply: 314"

1 AUTOMATIC SABRE SHAPE HANDLE  
ref. 059207 - 118" - Ø 70 mm²
