

Vehicle lift

2.5 T max

ERGO LIFT 1000 ROLL

Ref. 076792

Powered exclusively by compressed air, the ERGO LIFT 1000 ROLL can lift and manoeuvre vehicles of up to 2.5 tonnes. With 4 support arms that swivel and lock automatically, it can be adapted to suit all chassis types. Ergonomically designed, it has a lifting height of around 1 m, so you can work upright around the vehicle to avoid fatigue.

Highly Stable and Portable

- Super-compact: 10 cm in minimum position on the ground.
- Conforms to standard EN 1493 (load reversibility).
- Extremely useful in workshops with limited space. Mobile, and can be manoeuvred easily with 4 wheels.

Work from a standing position to help prevent musculoskeletal injuries (MSDs).

Sturdy, highly stable, warp-resistant scissor construction.

Handle to position the support arms with an automatic locking system (with or without load).

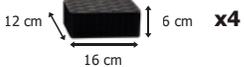

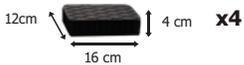

Adjustable sliding skid on the support arms to leave the underbody accessible.

Hydraulic safety system with automatic scissor lock in the event of hose rupture.

Maintenance-free, detachable hydropneumatic pump.

Supplied with 8 rubber pads

4 large attachable wheels can be used to transform the lift into a mobile carriage, enabling the vehicle to be manoeuvred easily around the workshop.

All axles are fitted with bronze bushes with a self-lubricating coating, which require no maintenance.

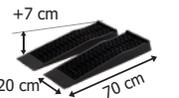

Optional accessories

4 SUV skates
065017

pack 2 ramps for electric vehicles >2 tonnes
082717

2 ramps for low profile sports cars
