

The GYSPOT PTI NEO delivers up to 13,000 amps of OEM-level spot welding power on a standard 30A electrical supply — no special infrastructure required. Fully liquid-cooled for daily production use, it features an integrated 21.4 lb transformer gun for exceptional mobility and consistent, structural-strength welds in modern collision repair environments.

## HIGH PERFORMANCE

Built for daily collision repair environments, the PTI NEO delivers:

- Delivers up to **13,000 amps** of welding current for structural-strength spot welds
- Produces up to **10 welds per minute** for efficient production workflow
- Provides up to **550 daN clamp force at 120 psi** for consistent panel fusion
- Fully liquid-cooled transformer, arms, and caps for sustained daily operation
- Integrated transformer gun design reduces power demand to just 30A, making installation simple for most facilities

## EASY TO USE

- Automatic welding mode selects optimal parameters for consistent results
- 3.5" color display with clear, intuitive controls
- Integrated spot counter tracks cap usage and maintenance intervals
- Minimal setup time for fast transition between repair operations  
USB data export capability for documentation and reporting

## COMPACT DESIGN

- Compact footprint ideal for space-conscious collision centers
- Weighs approximately 137 lbs for easy positioning within the shop
- Integrated transformer gun weighs just 21.4 lbs (with G1 arm) for excellent maneuverability
- 13.1 ft harness provides full access around the vehicle
- Operates on a standard 30A electrical supply — no special infrastructure required

## SAME G-ARM SYSTEM AS PTI GENIUS +

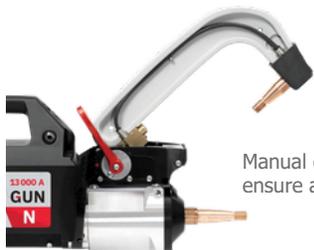

- Utilizes the identical G-arm architecture found on the PTI Genius+
- Tool-free arm changes for rapid configuration adjustments
- Automatic coolant connection during arm installation
- Brass arm plate and clamp holder for durability and electrical efficiency
- Wide range of arm lengths and electrode options for full vehicle access

LIQUID COOLING  
1.32 US gal

Integrated arm support

Manual opening of the arm to ensure a clearance of 7.87 inches
