

HandCannon

CH-SPR-5

Electric Riveting Gun

Features

- Fast Work Cycles
- High-Capacity 18V 4AH DC Battery
- Meets OEM Specifications*
- Precise Pressure Adjustments
- Produces Up to 55KN of Force
- Pressure Adjustment Knob
- Quick Arm Change
- Quiet Operation
- Rapid Battery Charging

Applications

- Self Piercing Rivets (SPR)
- Solid Rivets
- Rivet Removal
- Flow Form Rivets
- Calibrating Punch
- Flattening
- Pin & Collar

About the CH-SPR-5

Arms

Dies

Various options to choose according to different metals.

Fast Lock Plug

Lock arm and fast connection shaft easily.

Pressure Adjust Knob

Adjust pressure according to work demand.

Trigger

Press to turn on the power and start operation, release to stop operation.

Pressure Release Button

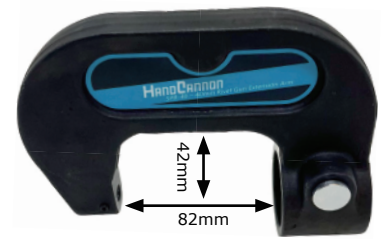

Press to release pressure of cylinder and reset the extension bar.

Multiple Arms

3 arm sizes available.

Rechargeable Battery

18V rechargeable lithium battery.

SPR-40

SPR-130 (Optional)

SPR-220 (Optional)

Specifications

Output Force	25-55KN adjustable
Pressure Accuracy	±3%
Work Stroke	35~40mm
Work Cycle	5-8 seconds
Motor Voltage	18V DC
Battery	DC 18V 4AH lithium battery
Charger	AC 100V-240V 50-60Hz
Charging Time	Approximately 1 hour
Work Temperatures	14°-104°F
Work Time From Full Charge	130~350 times (varies according to working pressure)
Noise	75db

Post-style dies for longevity and ease-of-use.

Included Items

SPR-5
SPR-40 Arm
Dies kit and toolbox
Battery Charger
(1) 18V Rechargeable Battery
Strap
Case
